## ABOUT THE CONFERENCE

The 12th annual Walking, Cycling, Connecting Communities Conference – commonly known as the National Active Travel Conference – returns to Perth on 3 June 2020.

Celebrating over a decade of promotion and development of Active Travel in Scotland, the conference's theme is "Connecting Communities Sustainably"

We'll be looking at how communities outside our cities - rural communities, villages and small towns - can access sustainable and active travel opportunities.

The confirmed line-up of keynote speakers includes Irene Beautyman, planning for place programme manager, Improvement Service and Aileen Campbell MSP, cabinet secretary for communities and local government.

A diverse range of breakout sessions will see delegates participating in interactive workshops, hearing presentations on the latest research and projects, or taking part in active demo sessions.

We expect to be welcoming up to 250 policy makers, decision makers and active travel practitioners to **Perth Concert Hall** on **Wednesday 3 June 2020**.
